MENTORING  
PROGRAM

**OASIS**

COMMUNITY DEVELOPMENT CENTER

Oasis Mentoring serves both boys and girls ages five (5) to eighteen (18) within the community.

### **WHY MENTORING?**

Youth Mentoring may produce youth who:

- ❖ Are less likely to experiment with drugs & alcohol
- ❖ Are less likely to skip school
- ❖ Are less likely to become involved in violence
- ❖ Have better attitudes about school, family, & relationships
- ❖ Experience improvement in self-esteem & self-confidence which could lead to leadership roles later in life

# WHAT TO EXPECT

You can expect mentors to give extra support to youth so they can reach their full potential in LIFE. Upon completion of each program, youth would have learned lessons that apply to real life. They will have tools to utilize in various situations so that they can live their lives with value & on purpose.

### CHILDREN (AGES 5 - 8):

Our curriculum includes both spiritual and physical activities that improve self-esteem, & self awareness, and promote inner beauty and distinctive character. Lessons include local community involvement and service, including interactive activities that help children understand the importance of community and their role in it.

### PRETEENS (AGES 9 - 12):

The curriculum for PreTeens will encourage, empower, & promote moral and sexual purity. You can expect healing & restoration to students who struggle with anger & low self-esteem. This program will equip Preteens to grow & mature into confident individuals with wisdom & integrity. Preteens also learn the importance of serving and giving back by participating in local community events.

### TEENS (AGES 13 - 18):

This curriculum is designed to build teens from the inside out. Teens will experience teaching & training causing them to become aware of their purpose & God's purpose for them to become polished and successful. Topics of discussion include self-awareness & identity, love, sex, the importance of character & integrity, and so much more. Opportunities are created for teens to serve their local community. Our program also makes "after high school" options readily available to teens by participating in local events, and disseminating information to parents and teens.
